

# 4200g optical module

## Overview

---

Provides a single high-performance 10-Gigabit fiber optic connection between devices for bandwidth-intensive applications. Uses industry-standard XFP modular transceivers, sold separately, to provide a flexible physical media connection. Step 4: Tighten the fastening screws with a screwdriver to secure the XFP interface module. It covers summaries of hardware and software features as well as the following topics: ■ One optional module slot for a 10 Gigabit Ethernet port module on the Switch 4200G 12-Port unit. The 3Com® Switch 4200G family delivers quad-speed performance- 10/100/1000 and 10-Gigabit-with plug-and-play "Gigabit-to-the-Desktop" switching and rich, easy-to-use features perfect for cost-conscious medium-sized businesses wanting a fast, efficient network upgrade.
