

800G Access Switch with 3-Year Warranty

Overview

SSE-T8164 comes with a standard (3-1-1) warranty which covers 3 years of labor, 1 year of parts and 1 year of cross-shipment warranty. The SSE-T8164 is an optimal choice for AI clusters and cloud-based networks by supporting capabilities such as RoCEv2, Dynamic Load Balancing, lossless Ethernet, advanced traffic engineering, and congestion avoidance. SSE-T8164 800G Ethernet Switch applications are being used increasingly in today's data centers, and Cisco N9000 Series Switches have the hardware and software capabilities to provide the right latency. Instrumental in the next generation ecosystem of ultra-high performance applications including hyper-scale cloud computing and dedicated AI/ML clusters is 800 Gigabit Ethernet. During each Maintenance Term, FS will provide configuring or operating PicOS®, error corrections, software updates & upgrades, and other extensive network technology services. Edgecore AIS800 is an ultra-high-density 800G QSFP-DD switch designed for advanced data center and AI network environments that require maximum bandwidth, scalable fabric performance, and precise timing capabilities. The Edgecore AIS800-32D is a high-performance, low latency switch for high-performance data centers.
