FastCongo, a subsidiary of network solutions company Paratus Group in the Democratic Republic of Congo (DRC), has announced that its 620km fiber optic

The fiber optic cable from the CAB project arrives in the

The installation of optical fiber covers more than 935 kilometers and connects the CAR to the Democratic Republic of Congo, in Congo-Brazzaville

BANDWIDTH AND CLOUD SOLUTIONS

The project concerns the second phase of the construction of a fibre optic backbone in the Democratic Republic of the Congo (DRC), focusing on underserved areas of the eastern part of the country.

The challenge of connectivity in the Democratic Republic

The telecommunications sector in any country is considered one of the economy's main pillars and sources of income. However, many factors can affect

Optical Fiber Cable Imports in Mozambique

Grow Your Optical Fiber Cable Import Business in Mozambique Volza's Big Data technology scans over 2 billion import shipment records to identify new Buyers, suppliers, emerging

BANDWIDTH AND CLOUD SOLUTIONS

The project concerns the second phase of the construction of a fibre optic backbone in DRC (Democratic Republic of Congo), focusing on underserved areas of the eastern part of the country. The fibre links

EUR100 The EurAfrica Gateway Cable, connecting the EU with milli

With 12,000 kilometres of fibre-optic cables, the first of its kind backbone will span Central, Eastern, and Southern Africa, close regional "missing links" and address the quality, speed, and cost-effectiveness

DR Congo: Two Chinese Companies Positioned to Build

Genew Technologies and Zhongshi Wosen, both Chinese companies, will help the Democratic Republic of Congo (DRC) build its fiber optic network.

Tanzania to Connect DR Congo to its Fiber Optic

"The government has begun taking steps to implement the construction of a 186-kilometer-long fiber optic cable from Kigoma, Tanzania to Kalemie, in the

Economic Impacts of Submarine Fiber Optic Cables and Broadband

This study explores the economic impact of the international data connectivity delivered by submarine fiber optic cables ("subsea cables") on the Democratic Republic of Congo (DRC).

DRC unveils AfDB-backed 600KM Fibre Optic Cable

The Democratic Republic of Congo (DRC) has launched a EUR66.55 million fibre optic cable project, a significant leap towards enhancing its digital

World's Deepest: BCS Group completes 400km Lake

BCS Group's Lake Tanganyika submarine cable reaches depths of 800 to 1,300 meters. The project is set to boost internet connectivity, speed and

DR Congo: Second phase of national fiber optic backbone completed

In the Democratic Republic of Congo, the cities of Kinshasa and Kasumbalesa are now connected via the fiber optic. This segment which is the second phase of the national fiber optic

List of terrestrial fibre optic cable projects in Africa

This is a list of terrestrial fibre optic cable projects in Africa. While submarine communications cables are used to connect countries and continents to the Internet, terrestrial fibre optic cables are used to

Optical Fiber Backbones in DRC: A Strategic Project

Given the complexity of this deployment and the need to secure its timetable as well as its investments, Facebook called on Sofrecom to carry out the preliminary

Democratic Republic of the Congo

It consists of various components, including twisted pair cables, fiber optic cables, and cable accessories. Twisted pair cables are the most common type of cabling used in structured cabling

DRC unveils AfDB-backed 600KM Fibre Optic Cable

The project includes constructing a state-of-the-art National Data Centre in Brazzaville and laying 600 kilometers of fibre optic cable to interconnect

BCS Group Completes Lake Tanganyika Submarine Cable

Spanning 400 kilometers across Lake Tanganyika, the newly installed submarine fiber optic cable reaches depths between 800 and 1,300 meters. This

List of All Internet Providers in Democratic Republic of the Congo

The Complete list of internet companies in Democratic Republic of the Congo, Kinshasa and other regions provides Satellite & VSAT, Business Internet, Cable Internet access, DSL, ADSL, SDSL,

Central African Backbone

Fibre optic cables being dug into the ground in Ouessou in Northern Congo in 2015. The Central African Backbone (CAB) is a fiber-optic Internet backbone

SOCOF and APCSC to deploy fibre along new roads in the DRC

Congolese Fiber Optic Company (SOCOF SA) has reportedly signed a partnership with the Agency for the Coordination and Monitoring of Collaboration Agreements (APCSC) to deploy

Construction of fibre-optic cables in the Democratic Republic of Congo

The 5 countries covered by the project are located in Central and Southern Africa and includes: the Democratic Republic of Congo, Zambia, Zimbabwe, Malawi and Mozambique.

DR Congo: BCS gets warrant agreement for a 1,200-km fiber project

The European Investment Bank (EIB) announced, Saturday, a warrant agreement with thewholesaletelecommunicationsinfrastructureproviderBandwidthandCloudServices (BCS). Under
