

# **Botswana 1U Standard Chassis Intelligent Type**

## Overview

---

D6000-CH1U is a compact 1U, 4-slot chassis to host up to four D6000 transponders or muxponders. It is equipped with redundant 1+1 power supplies and 3+1 fans, ensuring high availability, backup protection, and operational stability. The 1U chassis support multiple configurations include SATA hard drives, rackmount chassis and redundant power supply that fulfill server-grade IPC standard. Options for Rear-I/O and shelf management The 19" card cage is the perfect low profile solution for horizontal mounting of 3 U CompactPCI boards: A system controller, two peripheral boards, and rear I/O transition modules if needed. The InWin RA100's compact 1U design allows for efficient use of space in server racks, making it ideal for environments where space is limited without sacrificing performance.
