

Cable tray hoisting screw

Overview

Specifically designed to provide a rapid and secure fixing when erecting cable trays. The fixed washer to the flange nut prevents it from falling into the socket driver. The screw-on cable tray systems fulfil the requirements of "IEC 61537:2006 - Cable management - Cable tray systems and cable ladder systems" for the low-voltage area. This method primarily relies on two key accessories: hoisting frames and cross arms, each suited for different specifications of cable trays.
