

# Cable tray side bend elbow

## Overview

---

Cable Tray Bends and Elbows are essential components for smooth cable routing around corners, vertical drops, and complex pathways. Designed for industrial, commercial, and marine installations, these fittings ensure structural integrity, easy installation, and secure cable. Ensure your cable tray solution is designed for your application, with our vast range of ladder tray fittings. Choose from the following: Horizontal elbows, Vertical elbows, Tees, Reducers, Cross pieces, Branches Class 1 Tray Fittings are designed for use with NEMA Classes 12B and 12C Cable Trays. Moreover, this design ensures a secure cable support platform during cable tray transitions.
