## Overview

---

Ladder type cable trays are an excellent choice for outdoor projects, offering durability, enhanced ventilation, easy installation, and cost-effectiveness. Cables are well shielded and organized even in the harshest conditions due to their strong design. The cable support lengths and fittings can basically be designed as cable trays, cable ladders or mesh cable trays, in which cables are routed. Fittings can, on the one hand, be used for horizontal or vertical changing of the routing direction or, on the other, to change the height or width of the.
