Calibration of Anritsu MP2100B Ophthalmograph

BERTWave(TM) (10G BERT, Sampling Oscilloscope) MP2100B , Anritsu

The BERTWave MP2100B sampling oscilloscope has a bandwidth of 25 GHz (typ.) for electrical interfaces and a bandwidth of 9 GHz (typ.) for optical interfaces. In addition, up to six optional Bessel

FUNCTIONS , Anritsu America

The MP2100B integrates a 4ch BERT and sampling oscilloscope into one instrument (set). Capture BER for 3 points for each of 1E-3, 1E-5, 1E-7, 1E-8, 1E-9, and 1E-10 for 4ch × 10 Gbit/s.
