

Can you find out where the optical module was sold

Overview

You can find out where something was bought using barcode number search websites. Unfortunately some manufacturers have used that to determine if the module came from the OEM and if not, the systems flags the module as incompatible even though it is a fully operational module. By kennyb123 January 11 in Buy & Sell Audio and Computer Components Sonore opticalModule (original model) This is an audiophile fiber media coverer. A power supply is not included so you will need to provide your own power supply. Vendor proliferation, rapid technology advancement, and shifting demand make for an uncertain pricing environment. If you don't have the receipt, then you can try looking up the item online to see if there is a website or store that sells it. 6T optical modules, 800GE optical modules, 400GE optical modules, 100GE optical modules, 40GE optical modules, 25GE optical modules, 10GE optical modules, GE optical modules, FE optical modules, and so.
