

Certified Fire Protection Distribution Box

Overview

Certified according to the rigorous standards of DIN 4102-12 for classes E30, E60, E90, and tested according to IEC 60331-1, this box is designed to maintain critical services during a fire. ABB has expanded its range to include fire protection Mantle Enclosures, and Fire Protection Doors which, in addition to having a fire resistance duration that conforms to DIN 4102 Part 2 (F30/F90), also guarantee to check fire load (I30/I90) and maintain functionality (E30/E90). Pepperl+Fuchs provides a specialized portfolio of Ex d (flameproof) and Ex tb (dust protection by enclosure) certified terminal boxes and junction boxes engineered for reliable use in explosion-hazardous areas. These sturdy solutions are certified according to global standards such as ATEX, IECEx. CE-TEK have developed over the last 30 years a comprehensive range of rugged Electrical Junction Boxes specifically for use in most Hazardous Areas within such industries as Oil & Gas, Petro-Chemical, Pharma, waste water, food and beverage, milling etc, indeed any application or location where the. In the event of a fire, only absolutely reliable products prevent the spread of fire and guarantee safe function of electrical systems relevant for rescue and escape in buildings and tunnels, such as emergency lighting and smoke extractor systems in escape and rescue routes.

Certified Fire Protection Distribution Box

High Quality Customized Stainless Metal Electric Power
