

Does China Mobile have international fiber optic cables

Overview

With the PEACE, AAE-1 and SMW5 submarine cables, CMI has now formed three routes between Asia and Europe, further upgrading the network availability and effectively meeting the bandwidth requirements. China Mobile International Limited (CMI) officially activated the PEACE submarine cable on 30 August 2024. A 15,000-kilometer link connecting Singapore and France, and further extending to Malaysia and other European countries, PEACE is designed to provide fast, open and flexible connectivity. The estimated scale of this centralized procurement of ordinary optical fiber cables is 4,470,500 skin-length kilometers (equivalent to 143. Explore cable routes, landing stations, system status and infrastructure updates.

Does China Mobile have international fiber optic cables
