

Fiber optic cable tee 240

Overview

Designed for seamless integration in structured cabling systems, this 90-degree transition fitting connects a 240mm main raceway trunk to a 120mm branch raceway with optimal routing control. The system offers a flexible, high-capacity solution for data centre containment which is easy to install and reconfigure to meet future needs. Compatible with 4" x 4", 6" x 4", 12" x 4", or 24" x 4" channels, it.

Optical Fiber Cable Installation Guideline

While fiber optic cables are typically stronger than copper cables, it is still important that the cable maximum pulling tension not be exceeded during any phase of cable installation.

Enbeam 240 mm Horizontal TEE LSOH

A range of unique trunking segments in a variety of bend radii and lengths connect together in an infinite number of ways, allowing users to create a fibre storage solution that is fit for purpose.
