

High-strength cable tray bolts

Overview

This 6mm thread diameter is the industry standard for securing cable trays to gutters, channels, or supporting structures, ensuring adequate strength. OBO BETTERMANN has offered products and solutions for electrical installation for over 100 years. With our many years of experience, we are one of the leading manufacturers in this field. Manufactured from high-quality steel with a hot dip galvanised (HDG) finish, they provide excellent corrosion resistance. These systems are engineered with high-strength, stress-relieved, low-relaxation 7-wire steel strand cables.

High-strength cable tray bolts
