

How long are large-span cable trays

Overview

Cable trays that extend beyond 2 meters, such as those that are 8 meters or 9 meters in length, are classified as large-span cable trays. These longer trays require additional supporting brackets compared to ordinary ones. The standard NEMA lengths for cable tray are 12, 20, 24 and 30-feet, although some manufacturers like Eaton offer cable tray in lengths up to 40 feet. The mechanical and electrical characteristics, tests, certifications, overall quality management, recommendations mentioned in this technical guide only apply to our own cable management ranges and cannot under any circumstances be transposed to si osure, overheating or. Standard Widths: Side Rail Heights: Standard Lengths: Rung Spacing Options: Material Thickness:.. For cable tray applications lacking sufficient space for the number of supports required for standard-length sections, choose T&B Cable Tray long-span AH1-8 series aluminum cable tray in 40-foot (12.
