

# **How many circuits does the XRM distribution box have**

## Overview

---

XL-21, XRM101 series distribution box are suitable for indoor three-phase five-wire low-voltage distribution system, rated voltage of AC 220/380V, rated current of 16A~630A and below, rated frequency of 50Hz, as the use of receiving and distributing electric energy. It controls motors, electrical equipment, and lighting in AC 50Hz, 380/220V three-phase four-wire distribution systems. Its enclosure structure is fully enclosed, with measuring instruments, control switches, buttons, and signal indicators installed on the surface of the enclosure, enhancing.

## XR150 Dialer & Network Panel in Large Enclosure

---

The XR150 features 142 inputs, 8 keypads = 32 zones, 1 built-in LX Bus (100zones), and 10,000 user codes with 99 profiles. It provides ease of programming, dialer

## Home · XrmToolBox

---

How to use it? Documentation is available on this website. You will find information on how to use XrmToolBox, connect to your environments, develop your own

## How to choose the size of the distribution board

---

Learn how to choose the right distribution board size by assessing load requirements, circuit needs, and future expansions for a safe and efficient setup.

## News

---

XL-21, XRM101 series distribution boxes (hereinafter referred to as "distribution boxes") are made of high-quality cold-rolled steel plates, which are welded and formed with good strength.

## **Distribution Boxes: Types and Functions**

---

A distribution boxes acts as the load center and main distributor of electrical power within a building. Also called a distribution board, panel board,

## **XRM Integrated distribution box-LIYUAN POWER EQUIPMENT**

---

There are main ground point and grounding mark, the whole box constitutes a complete grounding protection circuit.

## **XRM Lighting Distribution Box-Dongfeng-covering various types of**

---

This product is mainly suitable for industrial and mining enterprises, production

workshops, building distribution, etc. It controls motors, electrical equipment, and lighting in AC 50Hz, 380/220V three

## **Xrm Distribution Cabinet, High Quality Xrm Distribution Cabinet on**

---

This product is mainly used in hotels, residential, stations, terminals and other buildings as 50HZ, rated voltage is 380V and below the lighting distribution lines and low-power power overload, short circuit,

## **XRM low-voltage distribution box-Enze Electrical-Switch cabinet-Ring**

---

It is mainly used for the reception and distribution of electric energy in three-phase AC power systems, as well as the starting, switching, and operation of high-voltage motors.

## **Putian XRM Lighting Distribution Box-Dongfeng-covering various**

---

XRM lighting distribution box is a lightweight distribution device indispensable for secondary distribution in various industries. With the improvement of electrical component quality and the introduction of
