

Overview

Users simply shape FlexTrax as required to create secure drops from overhead trough into cabinets or racks. What Are the Best Practices for Managing Fiber Optic Cables in a Server Rack?

Proper management of fiber optic cables is essential for maintaining. Data centers and racks & cabinets need to house and support an abundance of fiber optic cables. The best way to prevent cable clutter is, of course, to use the right network cable management. New from Amphenol Network Solutions, FlexTrax provides an ideal combination of flexibility, ease of installation, and most importantly, superior fiber protection for this. Most of the time the cabling company we do business with use 4inch Carlon conduits.

How to get the fiber optic cable into the secure server cabinet
