

# Huijue AI Server ISC

## Overview

---

Huawei is presenting AI Data Lake solution for the HPC & AI infrastructure at the ISC High Performance 2025, the world's primary forum for advancing HPC adoption in academic, governmental, and corporate sectors. The goal of this annual event is to foster a global exchange of knowledge, innovation, and collaboration in the field. Martin Schulz is a Full Professor and Chair of Computer Architecture and Parallel Systems at the Technical University of Munich (TUM) and serves on the board of directors at the Leibniz Supercomputing Centre (LRZ). Participants come in search of solutions that prioritize performance, energy efficiency, and cost-effectiveness across HPC, AI, quantum computing. More than 3,500 scientists, researchers, engineers, students, journalists, and analysts, alongside 200 technology providers, will come together to exchange ideas and shape the future of HPC.
