

Imported Intelligent Patch Panel 12 Cores

Overview

12 port LC fiber patch panel ODFKLC12 – pre-loaded with fiber adapters that serves as the intermediate connection between the backbone and your patch cable, provides an affordable, compact solution for your network. A 12-core fiber patch panel is a fundamental component in structured cabling systems, serving as a central termination point for fiber optic cables. These panels enable efficient cable management, simplify network maintenance, and support reliable, high-speed data transmission across enterprise. (Brand: SOFTEL) was established in 2006, which Located in the HangZhou Hi-Tech Development Zone. Taking advantage of the modern broadcast and optic fiber communication technology, we are specializing in R& D of CATV system equipment, and leading manufacturer of HFC. Indoor wall type fiber optic distribution frame can manage both single fiber and ribbon & bundle fiber cables for indoor using. Its special design ensures the excess fiber cords and pigtailed in good order, no. The system can be deployed in multiple applications including: central office, headend, FTTx, FTTC and data center.
