Diode Laser Therapy System

The Summit Series is a specially designed laser system that can perform superior class IV laser therapy treatments. With maximum an adjustable power output up

283QTx EML Die for Applications Up to 400 Gb/s (100 Gb/s per lane)

Using extensive knowledge in CMBH-grown, multi-quantum well, active-layer designs with a long history of proven field reliability, the lasers are qualified per the intent of Telcordia GR-468, qualified for use

Laser Diode Packages

Macro channel cooling, with water channel routed close to diode bars for high efficiency

cooling, which simplifies coolant filtration requirements and improves cooling efficiency.

5mW Red Line Laser Module: Adjustable Focus and

The 5mW Red Line Laser Module is a high-quality and essential component for accurate alignment and positioning applications. This versatile laser module

Laser Cutting Machine Price in Pakistan: Your 2026
