

Mz distribution box

Mz distribution box

MZ-2 L Distribution box module

Distribution box module MZ-2 L is an universal distribution box module designed for low-voltage electrical installations, including security alarm systems. Its purpose is to connect several

Satel DISTRIBUTION BOX/MZ-3L SATEL (19" Verteiler)

MZ-3 L Aufputz Verteiler 38 Schraubklemmen + Sabotagekontakt, Klemmenöffnungen 2,5 x 2,5 mm - schnelle und saubere Zusammenführung der Verkabelung in Installationen mit Niederspannung,

Satel MZ-3 S Distribution Box Module Owner's Manual

MZ-3 S is provided with 38 screw-type terminal blocks having maximum operating voltage 24 V AC/DC and current up to 500 mA. Metal pins are attached to each terminal to enable selected connections

MZ-1 S Distribution box module

MZ-1 S is an universal distribution box module designed for low-voltage electrical installations, including security alarm systems. Its purpose is to connect several wires without having

MZ-2 S -Distribution box module - SATEL

MZ-2 S is an universal distribution box module designed for low-voltage electrical installations, including security alarm systems. Its purpose is to connect several wires without having to solder them or use

MZ-2 S Distribution box module

Distribution box module MZ-2 S is an universal distribution box module designed for low-voltage electrical installations, including security alarm systems. Its purpose is to connect several wires

MZ-3 CT Distribution box module

MZ-3 CT is an universal distribution box module designed for low-voltage electrical installations, including security alarm systems. Its purpose is to connect several wires without having to solder

Satel MZ-3 S Distribution Box Module Owner's Manual

Learn all about the MZ-3 S Distribution Box Module, a versatile solution for connecting wires in low-voltage electrical installations and security alarm systems. Discover its features, specifications,

Satel MZ-3 CT Distribution box modules

Satel MZ-3 CT Distribution box modules, facilitates installation of low-voltage installations, like alarm installations krone type terminals

Distribution box module (MZ-3 L)

MZ-3 L is an universal distribution box module designed for low-voltage electrical

installations, including security alarm systems. Its purpose is to connect several wires without having to solder them or use

MZ-3 CT -Distribution box module - SATEL

MZ-3 CT is an universal distribution box module designed for low-voltage electrical installations, including security alarm systems. Its purpose is to connect several wires without having to solder

Satel DISTRIBUTION BOX/MZ-3L SATEL

Beschreibung MZ-3 L Aufputz Verteiler 38 Schraubklemmen + Sabotagekontakt, Klemmenöffnungen 2,5 x 2,5 mm - schnelle und saubere Zusammenführung der Verkabelung in Installationen mit

Distribution Box Modules

High-end testing equipment alongside technologically advanced machine park allow us to provide a wide range of services for other companies, in addition to our internal projects. Check what we can do for

MZ-1 L Distribution box module

MZ-1 L is an universal distribution box module designed for low-voltage electrical installations, including security alarm systems. Its purpose is to connect several wires without having

MZ-2 CT Distribution box module

MZ-2 CT is an universal distribution box module designed for low-voltage electrical installations, including security alarm systems. Its purpose is to connect several

MZ-3 L Distribution box module

MZ-3 L is an universal distribution box module designed for low-voltage electrical installations, including security alarm systems. Its purpose is to connect several wires without having to solder them or use

MZ-2 S Distribution box module

MZ-2 S is an universal distribution box module designed for low-voltage electrical installations, including security alarm systems. Its purpose is to connect several wires without having to solder them or use

MZ-2 L Distribution box module

Distribution box module MZ-2 L is an universal distribution box module designed for low-voltage electrical installations, including security alarm systems. Its purpose is to connect several wires

MZ-2 L Distribution box module

MZ-2 L is an universal distribution box module designed for low-voltage electrical installations, including security alarm systems. Its purpose is to connect several wires without having

MZ-3 L -Distribution box module - SATEL

The MZ-3 module with screw-type terminals comes in two versions, which differ by the size of their terminal blocks: MZ-3 L (large blocks) and MZ-3 S (small blocks).

MZ-3 L

MZ-3 L is an universal distribution box module designed for low-voltage electrical installations, including security alarm systems. Its purpose is to connect several wires without having to solder them or use

MZ-2 S Distribution box module

MZ-2 S is an universal distribution box module designed for low-voltage electrical installations, including security alarm systems. Its purpose is to connect several wires without having

MZ-1 CT Distribution box module

MZ-1 CT is an universal distribution box module designed for low-voltage electrical

installations, including security alarm systems. Its purpose is to connect several

MZ-3 L Distribution box module

MZ-3 L is an universal distribution box module designed for low-voltage electrical installations, including security alarm systems. Its purpose is to connect several wires without having
