

# **National Fiber Optic Connectors**

## Overview

---

National Fiber Connections, LLC (NFC) is one of the nations leading suppliers of network products. Unlike fiber splicing, which is permanent, connectors allow for easy connection and disconnection of cables, making them ideal for maintenance and flexibility in. We typically work in three key energy markets, oil & gas, marine renewable energy, and defence, where we focus on technology. Amphenol's 100G QSFP28 optical modules include SR4, AOC, AOC break out, CWDM4, LR4, ER4 Lite, ER4 and ZR4 series, which adopt LC or MPO optical ports and are compatible with IEEE802. The connector body, which is the protective housing that holds and protects the ferrule, plays a key role in ensuring a robust and durable connection.
