

# **Price quote for OPGW 24-core optical fiber cable**

## Overview

---

As of recent market analysis, the price range for OPGW cables is generally between RMB 10,000 to RMB 30,000 per kilometer. It is constructed with optical fibers laid within an aluminum and steel alloy structure of wire. While the outer layers of the wire provide mechanical support and grounding to the power system, the inner fibers facilitate high-speed communication of data. Apart from functions as a conventional ground wire, to protect the transmission line from lightning and short circuit current, OPGW also provide a data communication channel with the optic fiber inside the cable. The Central Tube Optical Ground Wire (OPGW) is surrounded by single or double layers of aluminum clad steel wires (ACS) or mix ACS wires and aluminum alloy wires, 24 Core OPGW Cable design is fully adapted to the most common electric line needs.
