

# RM type distribution box

## Overview

---

SFA-RM units are designed for supplying reliable energy, protecting electrical equipment in secondary distribution networks up to 17. Choosing the right distribution box is crucial for the safety, efficiency, and reliability of any electrical system. Our flexible distribution boxes enable reliable, decentralised signal transmission and power transmission up to protection class IP67 – wherever passive distribution boxes are required. We offer air-insulated, oil-insulated, gas-insulated, and SF<sub>6</sub>-free RMU solutions, all developed through continuous.
