Sungrow Power Supply Integrated Power Grid-Load- Storage System

Overview

Relying on its cutting-edge clean power conversion technology, industry-leading battery technology and grid forming technology, Sungrow focuses on integrated energy storage systems solutions. April 27th —Hefei, China—Sungrow, the globally leading PV inverter and energy storage system (ESS) provider, unveiled its next-generation PowerMatrix system for renewable energy applications, alongside a newly released technical white paper, at the Global Renewable Energy Summit (GRES) 2026. Our goal is to increase the adoption of clean energy and drive more creative, innovative ways to use. 5MW PCS and 5MWh batteries are all integrated into a single cabinet, allowing the system to output AC power directly.
