

# **Suspended Platform Electrical Distribution Box Set**

## Overview

---

The stainless steel waterproof electrical box is used for the control of up and down movements of the suspended platform. The main elements are mounted onto an isolated plate, and the universal switch, power indicator light, starting button and emergency stop button are fixed. The suspended platform control box is a high-performance electrical control system, the core power source designed specifically for the ZLP series suspended platform and various aerial work platform. We have more than 25 year's experiences in producing suspended platforms H frame scaffolding, Ringlock scaffolding and self-climbing scaffolding. Q: How long is your delivery time?

A: Generally, within 3-7 days after receiving payment or depends on the quantity of your order. It is suitable for the construction, repair and maintenance of large storage tanks, chimneys, DAMS, Bridges and derrick.
