

UAE Fiber Optic Cable Upgrade Project

Overview

Ooredoo Group today announced a partnership with du to land the Fibre in the Gulf (FIG) subsea cable system in the UAE, marking further progress in the development of a high-capacity international connectivity platform designed to support the region's growing data and digital. Benefits of Multimode Fiber Optic Cables: Cost-Effective: More affordable than single-mode fiber for short-range connections. High-Speed Data Transfer: Suitable for data-heavy applications in offices and businesses. The cutting-edge project connects three strategic international data centers: datamena DX1. To meet the growing stringent demands of the fibre optic cabling, the latest machinery and equipment used in this field are possessed by Centaur, Some of them are as follows: MANPOWER & CERTIFICATION Full-fledged in-house facility with competent Project Managers of 25 plus years of experience, Site. Over the years, they have played a crucial role in enhancing internet speed, reliability, and capacity.
