

# **Uzbekistan Project Quotation High-Density Edge Data Center**

## Overview

---

Valued between Rs 1,000-2,500 crore, the project involves engineering, procurement, and construction of a state-of-the-art facility designed to power AI applications, reduce environmental impact, and enhance energy efficiency. And one of the boldest experiments is unfolding in an unexpected place: Uzbekistan. At the Tashkent International Investment Forum 2025 (TIFF 2025), green tech and AI-ready infrastructure dominated the conversation, and few projects generated as much buzz as Data Volt's push to build the region's. The UAE-based company Data Volt has launched a €185 million pilot project to build high-density data centers powered entirely by. Uzbek President Shavkat Mirziyoyev has launched the second phase of the IT Park Uzbekistan innovation complex in Tashkent's Mirzo-Ulugbek district, signaling a major advance in the country's digital transformation agenda.

## Uzbekistan Project Quotation High-Density Edge Data Center

---

### President Mirziyoyev launches construction of \$150 million data center

---

In partnership with Saudi company Data Volt, a 12 MW data center worth \$150 million will be constructed. At subsequent

### Uzbekistan Data Center Infrastructure Market (2025-2031)

---

6Wresearch actively monitors the Uzbekistan Data Center Infrastructure Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and

## **Uzbekistan to build 'carbon-free' data center with Saudi partners**

---

Given the growing demand for artificial intelligence capabilities, we are initiating the creation of a completely carbon-free data processing center together with our Saudi partners." He

## **L& T to Build Uzbekistan's First AI-Enabled Data Center**

---

Larsen & Toubro (L& T) has secured a significant contract to construct Uzbekistan's first AI-enabled 10-megawatt data center in Tashkent. This cutting

## **L& T to Build Uzbekistan's First AI-enabled Data Centre**

---

The project will set new standards for data centre infrastructure in the region, combining cutting-edge technology with a strong commitment to

## **L& T bags order to build Uzbekistan's first AI-enabled**

---

Larsen & Toubro (L& T) has secured an order to build Uzbekistan's first AI-enabled 10-megawatt data center in Tashkent. The project, valued

## **DataVolt breaks ground on data center in Tashkent,**

---

Saudi firm DataVolt has broken ground on its debut data center in Tashkent, Uzbekistan. The groundbreaking of the Tashkent IT Park Data Center

## **Pilot project to launch EUR185m sustainable data centre in**

---

It has already launched a pilot project worth EUR185 million in Tashkent's ITPark. Larger facilities are in the pipeline, including a new site in the ancient city

## **List of Upcoming Data Center Facility Projects in Uzbekistan (2025)**

---

Search all the announced and upcoming data center facility projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Uzbekistan with our comprehensive online database.

## **Tackling Consumption & Emissions, Uzbekistan**

---

Uzbekistan is stepping up to address the growing energy demands and emissions of data centres by launching the region's first fully sustainable, AI-ready data centre.

## **Data Center Consulting Design Owners Rep Uzbekistan UZ**

---

Landmarks and Industries in Uzbekistan Uzbekistan is home to various landmarks and industries that rely on advanced data center consulting and design services. From the historic Registan Square to

## **We invite you to invest in hyperscale data center in Uzbekistan**

---

Uzbekistan presents an opportunity to connect Asian and European data center hubs and serve as gateway to untapped emerging markets Sweden Finland Netherlands Belgium Dusseldorf

## **EUR185 million 'green' data center is being built in Uzbekistan**

---

The UAE-based company Data Volt has launched a EUR185 million pilot project to build high-density data centers powered entirely by sustainable energy

## **L& T to construct Uzbekistan's first AI-enabled, sustainable 10-MW**

---

Engineering major Larsen & Toubro (L& T) has received a project to build Uzbekistan 's first AI-enabled and sustainable 10-Megawatt data centre in Tashkent, the company said in a press

## **L& T to Build Uzbekistan's First AI-Powered Data Centre ,**

---

Larsen & Toubro (L& T) has bagged a pivotal order to construct Uzbekistan's first AI-enabled and sustainable 10-megawatt data centre in

## **Data Center Construction Management Uzbekistan UZ**

---

Our team of seasoned data center construction managers brings a wealth of knowledge to every project in Uzbekistan. With a deep understanding of local construction regulations and cultural nuances, we

## **Uzbekistan Data Center Rack PDU Market (2025-2031) , Trends,**

---

6Wresearch actively monitors the Uzbekistan Data Center Rack PDU Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and

## High Density Data Center Solutions for AI and HPC

---

Explore innovative high-density solutions and advanced data center services. Optimize your IT infrastructure with scalable and efficient solutions with

## Uzbekistan launches tax-free zone for AI and data

---

Uzbekistan offers tax breaks, cheap electricity, and renewable-energy support, with most sites planned in Karakalpakstan to help build the country's AI

## Edge Data Center Market

---

The edge data center market refers to the segment of the data center industry focused on deploying smaller, decentralized facilities located closer to end users

## HW Solution for

---

"Edge-of-network data centers, or simply edge data centers - small data centers (about 10-100kW IT load) geographically located close to end users and intended to reduce latency, decrease network

## Tackling Consumption & Emissions, Uzbekistan

---

Uzbekistan launches a EUR185 million pilot for a sustainable, AI-ready data centre using solar and wind power. Data Volt plans billions in investments to build green, high

## Karakalpakstan to Become Data Center Hub Under Uzbekistan's

---

Authorities are targeting global tech firms such as Google, Microsoft, Meta, and Amazon to establish data operations in Uzbekistan. The initiative is designed to strengthen the country's
