

What is the standard mesh size for network cabinets

Overview

A 19-inch width is standard for network cabinets, matching the size of many servers and patch panels. The Electronic Industries Alliance (EIA) and the Telecommunications Industry Association (TIA) have set a fundamental standard for rack - mounted equipment, which also applies to wall network cabinets. Cabinets typically range from 6U (for wall-mounted setups) to 48U (for large server rooms).

What is the standard mesh size for network cabinets
