

What kind of brackets are used to fix cable trays

Overview

A cable tray bracket is a support mechanism designed to hold and secure cable trays in place. Other add-ons include plastic nuts, bolts, swift clips, wire baskets, couplers, tees, crosses, and brackets. These fittings are used in conjunction with cable trays to support cables in ventilation holes, assist with directional change of piping systems, and aid cable channelling around obstacles. Fittings can, on the one hand, be used for horizontal or vertical changing of the routing direction or, on the other, to change the height or width of the.

What kind of brackets are used to fix cable trays

Cable Tray Accessories, Cable Tray Hangers & Support , RS
