

What kinds of smart micro-modules are available in Nepal

What kinds of smart micro-modules are available in Nepal

Prabidhi Solution

To become the leading provider of smart board solutions in Nepal, empowering educational institutions and businesses with cutting-edge interactive technology

Applications of smart grid technology in Nepal: status

Evaluating the current energy scenario in Nepal, this article presents the smart grid as a solution to existing and future energy issues and the associated challenges during its

solar power plants

The Thatichaur Solar Microgrid, installed by Peak Power and Sunshine Energy in Kushe Rural Municipality, Nepal, utilizes an SMA Multicluster system to provide reliable energy to the community.

Best Phones Under 10000 in Nepal

Looking for the best mobile phone under NPR 10,000 in Nepal? Our 2026 list features affordable options with dependable performance and decent displays.

About us

Founded in 2009, Home Automation Nepal is Nepal's leading provider of smart living solutions. We integrate cutting-edge technology into homes, offices, and hotels to enhance convenience, security,

Sustainable Electric Transport for Nepal (SET4NPL)

The project aligns with Government of Nepal's policies and activities, especially Nepal's Second Nationally Determined Contribution (NDC) submitted to the UNFCCC in 2020, which includes

Applications of smart grid technology in Nepal: status

Energy transformation and sustainability have become a challenge, especially for developing countries, which face broad energy-related issues such as a wide demand-supply gap,

Sustainable Electric Transport for Nepal (SET4NPL)

Project Summary The SET4NPL project aims to transform Nepal's public transport system through electric vehicles. The project will help private transport operators acquire 3,500 Electric Micro- and

Himalayan Solution

Memory card used for storing information. It is compatible with TF SD Card used in mobile phone which is very tiny. It has various applications such as data

Smart Cities in Nepal: The concept, evolution and emerging patterns

Development and transformation into Smart Cities would be a new avenue in Nepali development trend. However, this is relatively new and is still in its early stages of development. The

Smart Metering Road Map for Nepal

With respect to smart metering, Nepal will have to develop capability in areas such as metering, communication technologies for smart metering, IT applications (such as head-end and meter data

Himalayan Solution

Himalayan Solution was established not only to provide parts and components, we are also working to introduce different technologies in Nepal to compete with rest

NEA Smart Electricity Meters: Features and How It Works?

NEA (Nepal Electricity Authority) has started the implementation of Smart Electricity meters in Kathmandu. This comes as the first phase of the

Business Models Key to Successful Microgrids in Nepal

Business uses of microgrids in Nepal can include cell phone towers such as those owned by Gham Power partner NCELL (Nepal's first private cell

Power Up Nepal: Solar Micro-Grids for Rural Electrification

GhamPower's smart solar design, technical expertise, and track record of successful and sustainable rural electrification projects makes them a great partner for GRID's Power Up Nepal project.

Make Life Easier: Smart Plugs and Switches in Nepali

Simplify your Nepali home with smart plugs and switches. Control your appliances from anywhere and optimize energy usage. Experience the ease

Micro Hydro Interconnected Mini Grids in Nepal

In Nepal, distributed renewable energy technologies such as Micro Hydro Mini Grids (MHMGs), and Solar Home Systems (SHSs) are cost effective

**#sustainabletransport #electricbuses
#tendernotice**

? Tender Alert ? GGGI Nepal Country Office invites bids for Electric Mini- and Microbuses (EMBs) and Charging Stations with Digital Ecosystem for Charging

Ask HN: What Are You Working On? (April 2026) , Hacker News

Petrify will also be order of magnitude kinder to your Garbage Collector, which will increase performance in high-throughput situations. You're also not loading 10 gazillion classes, as your models are directly

Himalayan Solution

Arduino Pro Micro Usb is an ATmega32U4 board running at 5V/16MHz. It is the smallest Arduino -Compatible board. It has high speed PWM with programmable

Buy ESP32 WiFi Module in Nepal

Discover the ESP32 WiFi Module with Giga Nepal. Learn about its specifications, pinout, and applications in IoT, smart home devices, and wireless projects. Ideal

Smart Home Solutions in Nepal: Embracing a

Discover the transformative power of smart home solutions in Nepal: energy efficiency, security, convenience, and a sustainable future.

The implication of 'Smart Village' in Nepal: Sustainable

The main objective of the study is to discuss the importance of 'smart villages' in Nepal considering it would enhance rural and local development. The

InnovNepal

Discover our comprehensive range of Arduino boards, ESP32 modules, sensors, and educational kits. Everything you need for your next IoT project, all in one place.

Nepal Private Sector-Led Mini Grid Energy Access Project (MGEAP)

AEPC is implementing "The Nepal: Private Sector-Led Mini-Grid Energy Access Project (MGEAP)" supported by Government of Nepal and the World Bank.
