

Which metal s price affects the price of optical cables

Overview

Material cost: The main materials of fiber optic cable include optical fiber and metal core. In some cases, suppliers only guarantee quotations for the same day, and in extreme situations even half-day quotations are appearing in the market. CRU's Wire and Cable team has provided market-leading analysis and support to our clients for decades. In early 2026, global commodity markets experienced increased volatility: gold prices broke through \$5,189 per ounce, and prices of non-ferrous metals such as copper and tin rose by more than 20% year-on-year.
