# **Wiring in the built-in wall-mounted distribution box**

## Overview

---

Wiring Direction: Wiring between the main circuit breaker and each branch circuit breaker in the box generally goes on the left, and the wiring out of the distribution box generally goes on the right. It takes the incoming power and safely distributes it to different circuits throughout your building. In modern electrical systems, cable distribution boxes (also known as electrical distribution boxes or distribution boxes) play a crucial role as the key hub for managing, distributing, and protecting circuits. Whether it is residential buildings, commercial facilities or industrial sites, the.
